August 20, 2018

To the Bristol Board of Education:

Our District Wellness Committee met back on Friday, May 4, 2018. The general consensus was that we were doing a good job meeting the majority of goals outlined in board policy.

Also, the following recommendations were cited by the committee as potential areas to improve wellness in the district for the 2018-2019 school year:

- Serve prepackaged sliced apples instead of whole apples as sliced apples are easier to eat and more inviting for all district students.
- Consider giving seniors the option to eat their lunches in the courtyard when the weather is nice during the spring. This would be a privilege for twelfth grade only. A picnic table was moved into the courtyard this past spring for this purpose.
- Try to determine the best window of time during the day for high school students to purchase from vending machines without interrupting operations in the elementary building.
- Survey students on meal options to see if there are new items that could be incorporated into the lunch menus. Look at possibly incorporating a senior pick week on the lunch calendar where seniors would get to pick the menu for the week.

I want to say a special thanks to all the members of our committee for taking time out of their busy schedules to meet on such an important topic.

Sincerely,
Christopher J. Dray
