## December 2018 Bullying Report

State law requires Bristol High School to submit a semiannual report regarding bullying incidents. As of the middle of the school year there was 1(one) incident that rose to the level of bullying. The students engaged in conferences with the school counselor and administration and were notified of potential discipline and the behavior did not persist beyond the initial discipline referral. This incident was online through social media. To this point there has been no continuation of the behaviors.

Additionally the High School had several incidents in which students had disagreements and may have initially used the term bullying to describe the incidents, the definition of bullying is a continued or persistent behavior. The incidents that were reported were dealt with through the discipline policy in the student handbook and did not rise to the level of bullying because they did not become persistent. The High School teaching staff and School Counselor work very hard to ensure that all children are educated in a safe environment free from harassment and bullying.
