January 25, 2021

Dear School Community,

Bristol Local Schools is committed to the safety and health of our students and staff. We want to inform you that we have recently received information about three confirmed cases of COVID-19. The first case is member of our varsity boys' basketball program and from the Monday/Tuesday cohort in the high school. The student has already been in the quarantine protocol with other team members so this should not affect anyone outside of the team. The other two cases are part of the Thursday/Friday cohort in the high school. However, these students have not been in the building since Friday, January 15th. Contact tracing goes back 48 hours so the Thursday/Friday cohort will be unaffected by this.

How You Can Help

Be proactive about reducing the number of interactions that students and staff have with one another by practicing social distancing (staying at least 6 feet apart) to limit the spread of COVID-19. In addition to physical distancing, these important tools help to prevent the spread of COVID-19:

- Stay home when you are sick.
- Wear a mask or face covering while in public places or if people who don't live with you must visit your home.
- Avoid unnecessary gatherings with people who don't live in your home.
- Avoid sharing food, drinks, or utensils.
- Wash your hands often with soap and water for at least 20 seconds. Sing the Happy Birthday song twice to help know when it has been 20 seconds. If soap and water are not available, use alcohol-based hand sanitizers that contain at least 60% alcohol.
- Cover your coughs and sneezes with a tissue, and then dispose of the tissue and wash your hands immediately. If you do not have a tissue, use your sleeve, not your hands, to cover coughs and sneezes. If you are experiencing a cough or congestion, consider staying home and seeking medical care.
- Regularly clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipes. The Centers for Disease Control and Prevention recommends cleaning of frequently touched surfaces with household cleaners and EPA-registered disinfectants that are appropriate for the surface, following label instructions. A simple bleach solution may also be utilized.

If you have any questions, contact Bristol Local Schools at 330-889-3882 or the Trumbull County Health Department at 330-675-2489. Thank you for helping to keep people safe and to slow the spread of COVID-19 in our community and school.

COVID-19 Symptoms
Help prevent the spread of Covid-19

You may have COVID-19 if you have:

- Fever or chills
- A cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Loss of taste or smell
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Symptoms may be mild or severe and may appear two to 14 days after exposure to the virus.
